

euCognition

The European Network for the Advancement of Artificial Cognitive Systems

www.euCognition.org

FP6 Project 26408

**Funded by
The European Commission
Unit E5 – Cognition**

Duration: 1/1/06 to 31/12/08

Budget: €1.6 m

What is euCognition?

**Foster inter-disciplinary research
through**

Workshops
Conferences
Courses & Tutorials
Summer schools
Exchanges of staff and students
Development of training material
Surveys & White Papers
Research planning
...

What does it do?

Who is it for?

People doing research in, e.g.,

Neuroscience
Psychology
Cognitive science
Linguistics
Machine Learning
Autonomous systems theory
Cognitive robotics
Cognitive Vision
...

**& with a strong interest in
artificial cognitive systems**

Why should I join?

**Help lay the
scientific & engineering
foundations of cognitive systems**

**Interact with people
from other disciplines**

Build a new research community

CogSys
Cognitive Systems
