## Mean Validation Data: Caucasian Adult Subset

Validation data for all images from the Caucasian adult subset. Image names contain the coding of all stimulus dimensions in the order given in the table header.

Abbreviations for validation data columns are as follows:

- *% Agr.* percentage of agreement on emotion categorization
- *Int.* mean intensity rating for the facial expression
- *Cl.* mean clarity for the facial expression
- *Gen.* mean genuineness for the facial expression
- *Val.* mean valence rating for the image.

# Mean Validation Data: Caucasian Children Subset

Validation data for all images from the Caucasian adult subset. Image names contain the coding of all stimulus dimensions in the order given in the table header.

Abbreviations for validation data columns are as follows:

- *% Agr.* percentage of agreement on emotion categorization
- *Int.* mean intensity rating for the facial expression
- *Cla.* mean clarity for the facial expression
- *Gen.* mean genuineness for the facial expression
- *Val.* mean valence rating for the image.

# Mean Validation Data: Moroccan Adult Subset

Validation data for all images from the Moroccan adult subset. Image names contain the coding of all stimulus dimensions in the order given in the table header. Abbreviations for validation data columns are as follows:

- *% Agr.* percentage of agreement on emotion categorization
- *Int.* mean intensity rating for the facial expression
- *Cla.* mean clarity for the facial expression
- *Gen.* mean genuineness for the facial expression
- *Val.* mean valence rating for the image.
